

# Play Off Format

- 1) Coin Flip between captains to determine who gets to choose offense or defense or what side they will play from. Team traveling the furthest will call the coin flip.
- 2) 1st series of downs – Ball placed on the 25 yard line and the team that chooses offense will have a chance to score until they turn the ball over on downs or lose possession through a fumble or interception.
- 3) After the first teams possession ends the 2<sup>nd</sup> team will have an opportunity to score from the 25 yard line.
- 4) At anytime the defense intercepts or recovers a fumble the offensive series is ended and the defensive team will go on offense if needed.
- 5) After both teams have had an opportunity to score from the 25 and the score is still tied then all subsequent periods will be from the 10 yard line.
- 6) Each team will be given 1 time out per period played and they do not carry over to the next period.
- 7) After the original coin flip the team losing the toss will have the opportunity to choose offense or defense or endzone and the choice will alternate the rest of the periods played.

### Playoff for 1/2/3 Seed

Arlington Gold  
 Sedro  
 Bellingham

All have Identical Records and have not played head to head as a whole. Bellingham has an extra win but it was a non-counter for them.

Coin flip to see who plays who first with the Winner of that game playing the odd team out.

**Playoff for 4/5 Seed**

These two teams will see each other in the first week of the playoffs regardless of how the mini playoff turns out. I suggest FH takes the 5 seed and Arlington White agrees to play at a neutral sight.

**Playoff for 6/7 Seed**

Lakewood and Burlington need a mini Playoff to determine who plays where.
