Camp Overview

Youth Developmental Camp

Maximizing your ability as a baseball player begins with learning the proper techniques, and then having a desire to master them through repetition. This camp offers personal and group instruction in all phases of the game of baseball. Attention is given to proper instruction and drills to enhance the skill levels of each individual. Our goal is to provide the instruction to make each camper a more complete player. This age group is very important in the terms of skill development, so it is vital to learn the proper fundamentals that will lead to success. Campers will be instructed in the fundamentals including hitting, pitching, infield, outfield, catching, base running, bunting, cut-offs & relays, rundowns, as well as some more advanced team concepts. Players will be grouped and divided by age and ability level. Each camper will participate in daily contests along with a variety of skill related activities within their specific groups. At the end of each day, campers will have the opportunity to showcase their skills in competitive games during the four days.
